

WirelessPartners^{Inc.}

Realizing our customer's vision

Who We Are

Wireless Partners, Inc. is a wireless Engineering and Project Management services company founded by and staffed with highly skilled professionals who have been wireless operators. Our goal is to help our customers realize their vision through the use of highly skilled expertise and flawless execution. Our plan is to grow the company through the formation of strong relationships with strategic partners.

What We Do

We provide highly skilled, professional resources that can engineer and manage small or extremely large scale projects. We can either compliment your existing team or you can outsource your project to us. Our portfolio of services include Project Management, RF Design & Network Engineering, Installation, Test & Commissioning, Equipment Engineering, Consultancy services and Technology Migration expertise.

Why Choose Wireless Partners, Inc.?

Wireless Partners was founded by operators with expertise in designing, implementing and operating wireless networks. Here are some of the reasons why Wireless Partners should be your partner of choice:

- **Unparalleled Wireless Operator Experience**
 - » Over 25 years combined experience in a wireless operator environment
 - » Over 30 years combined experience in telecommunications management
- **Broad Hands-on Experience**
 - » RF Engineering
 - » Equipment Engineering
 - » Network Engineering
 - » Project Management
 - » Executive backgrounds
- **Deployment Experience**
 - » New Market Build-outs - Small and Large
 - » Technology Migrations - AMPS/TDMA, TDMA/GSM, UMTS
 - » Network Capacity Additions

Wireless Partners is a privately owned Seattle-based company, formed in May of 2003. We have expanded into Canada in 2009.

The company's headquarters is 26950 SE 22nd Way, Sammamish, WA 98075.
